

Contact Cleaner

Cleans light contaminants as dust, lint, moisture and light oils. Plastic safe, non-chlorinated, non staining, non corrosive and non flammable. Does not contain any known ozone depleting substances or VOCs.

Part No. 03070 – 16 oz. aerosol

Cutting Oil

Thread cutting lubricant for use on all types of metals including brass, cooper and aluminum. Reduces heat and friction to ease cutting and increase cutting tool life. Clings even to vertical surfaces. Sulfur-free, low odor formula. Compatible with all manual and motor driven threading equipment.

Part No. 14050 – 16 oz. aerosol

CRC Red Urethane

CRC Red Urethane is a stable single component polyurethane coating for electrical and electronic applications. It dries fast, adheres well and forms a hard, durable, flexible and non conductive film for electrical motor windings and armature coils
