

ECLIPSE Plus 30
All Hard HSS

Manufactured from top quality M2 High Speed Steel. It cuts 30% more effectively than a conventional blade. Benefits, Sharper first cut, faster cutting and longer blade life.

ECLIPSE Plus 30
Bi-Metal HSS

The combination of an M2 High Speed ground cutting edge, electron beam welded to a flexible alloy back gives a level of cutting 30% more effectively than a conventional blade. Benefits; high performance , virtually unbreakable shatterproof blade.

ECLIPSE Plus 30 Hacksaw Blades

- All Hard HSS**
- A rigid all hard blade for Highly accurate cutting and long life
 - Manufactured entirely from top quality High Speed Steel
 - Precisely hardened to give a strong rigid back ensuring a perfectly straight cut time after time
 - Cuts through all types of materials including alloys and Stainless steel

- Bi-Metal HSS**
- Virtually unbreakable bi-metal blade for superb cutting performance, wear resistance and safety
 - Combination of an M2 high speed cutting edge electron beam welded to a flexible alloy back
 - Cuts through all types of materials including alloys and Stainless steel
